

*Microbiology &
Immunology Seminar*

**“A proteolytic complex in the
Pseudomonas aeruginosa cell
envelope targets cell wall
hydrolyses to impact virulence”**

presented by

Andrew Darwin, Ph.D.

**New York University
New York, New York**
Department of Microbiology

**Wednesday, January 10, 2018
10:00am**

5915 Buhl

Refreshments will be served at 9:45 a.m. in 5619 MS II

*Department of Microbiology and Immunology
The University of Michigan*
