

UMMS aims to launch several working groups performing systematic reviews. Come learn how to conduct a systematic review in medical education from a Best Evidence in Medical Education (BEME) Review Expert.

*You are cordially invited to
bring your review topic ideas*

**Friday
May 05, 2017**

THSL 6000

Arrival 7:45 am

Workshop 8:00 am - 1:00 pm

Space is limited so please

[Click here to RSVP by April 21th](#)

Morris Gordon is a Consultant Paediatrician working at Blackpool Victoria Hospital, UK. He has a special interest in gastroenterology and community paediatrics. He has been an active contributor to the Cochrane collaboration for a decade, with involvement in 16 reviews to date. He is an editor of the Cochrane IBD and functional bowel disease groups. He also works at the University of Central Lancashire and is a reader in evidence synthesis and systematic review, as well as the lead for medical education research and head of professionalism and careers at the medical school. He has been involved with BEME for 5 years and has recently become the chair of the editorial committee within BEME. He is active in education systematic review, as well as writing on methodological issues within the field. He has led the design and delivery of BEME training for the last 3 years.
