

## FDA Postdoctoral Research Opportunity in Microbial Pathogenesis

Come join us as an ORISE postdoctoral fellow at the US-FDA's White-Oak Campus in Silver Springs, Md.

A postdoctoral research opportunity is currently available in the Office of Vaccine Research and Review (OVRR) at the Center for Biologics Evaluation and Research (CBER), Food and Drug Administration (FDA).

- Start date: ~August 2023
- Starting salary: ~\$70k

**Organization:** U.S. Food and Drug Administration (FDA)

**Reference Code:** FDA-CBER-2023-09

### Projects include:

- 1) Identifying novel factors important for virulence in *Klebsiella pneumoniae*
- 2) Determining how *K. pneumoniae* evades detection by and/or modulates the host immune system
- 3) Have your own ideas? Great! I am not beholden to traditional funding mechanisms.

### Preferred skills / knowledge:

- Tissue culture
- Molecular cloning
- Whole genome sequencing analysis
- Transposon sequencing
- Experience working with rodents
- Bioinformatics (Python, R)
- Strong written and oral communication skills

Missing some of these? Apply anyway!

### How to Apply:

Click Here - <http://bit.ly/3YLOAIG>

### A complete application consists of:

- An application
- Transcripts – Click here for detailed information about acceptable transcripts
- A current resume/CV, including academic history, employment history, relevant experiences, and publication list
- One educational or professional recommendation

All documents must be in English or include an official English translation. If you have questions, send an email to [ORISE.FDA.CBER@orau.org](mailto:ORISE.FDA.CBER@orau.org). Please include the reference code for this opportunity in your email.
